

Chemistry

Immerse yourself in the lab and study with Christian professors.

In small classes, you work closely with professors who care deeply about you and your future. Demanding courses and a range of tracks help students think like a scientist and discover what it means to work in a lab. Chemistry majors undertake research with personal guidance from professors, and many spend 10 weeks in an intensive summer research program. Cutting-edge labs and state-of-the-art instrumentation set Westmont's program apart and give graduates an advantage in finding jobs or getting into graduate school. You receive a first-rate education in chemistry from Christian professors who integrate faith and learning and prepare you for meaningful work.

SELECTED COURSES

- Science and Religion Seminar
- Organic Chemistry
- Advanced Inorganic Chemistry
- Analytical Chemistry
- Thermodynamics
- Biochemistry
- Advanced Biochemistry
- Computational Chemistry Seminar

CAREER PATHS

- Industrial or clinical chemist
- Chemical engineer
- College professor
- Dentist
- High school teacher
- Marine scientist
- Pharmacologist
- Physician
- Nuclear medicine technician

WESTMONT

FACULTY HIGHLIGHTS

KRISTI CANTRELL, PH.D.

Helps biochemists understand neurodegenerative diseases and students make wise choices about medical school; expert in protein aggregation

STEVE CONTAKES, PH.D.,

Seeks a cleaner world through new molecules with his specialty in inorganic biochemistry; thinks with you about integrating science and faith

AMANDA SILBERSTEIN, PH.D.

Develops new methods for hooking molecules together and explores the wonders of organic chemistry with you

BRANDON HAINES, PH.D.

Simulates organic reactions in a computer to better understand the details of bond making and breaking

ALLAN NISHIMURA, PH.D.

Mentor to a generation of undergraduate chemistry researchers; he probes the motions of molecules in thin films

STEPHANIE COWELL, M.S.

Expert at orienting new students to experimental chemistry and keeping you safe in the lab

MICHAEL EVEREST, PH.D.

Physical chemist who uses powerful lasers to study surfaces and powerful teaching techniques to help you learn chemistry

OPPORTUNITIES ABROAD

- Westmont's Global Health Uganda
- Westmont in Asia
- Organization for Tropical Studies: Tropical Diseases, Environmental Change and Human Health, Costa Rica
- Creation Care Studies Program, Belize
- Creation Care Studies Program, New Zealand
- Organization for Tropical Studies, South Africa

ALUMNI

Elizabeth Simoneit '15 enrolled at the University of South Florida College of Medicine after spending a year teaching English in Querétaro, Mexico. She graduated from Westmont with degrees in chemistry and Spanish and won the Kenneth Monroe Award

for academic achievement, campus leadership and impact on fellow students. She pursued two majors so she could communicate with Spanish-speaking patients in their own language and volunteer in communities where doctors aren't easily accessible.
