DS	Deanne Chapel	WS	Whittier Science
MG	Murchison Gym		

***Prof Gee: Friday at 3:15-4:30 in Deane Chapel - I'm happy to have a spare folder for them to sing**

**** Prof Johan Estrada-Lopez - It could be interesting for Family to see what students actually do and learn in their upper level engineering classes. In the 9:15am class, they will be working in cool (and costly) Control Systems experiment stations that we purchased recently, so it could be interesting for them to be there and receive a short explanation of what we are doing.**
